Hydel power generation in the country

2204. SHRIMATI ILA PANDA: Will the Minister of POWER be pleased to refer to answer to the Starred Question 64 given in the Rajya Sabha on 7th December, 1993; and state the problems coming in the way of fuller utilisation of the hydel power potential in the country and what steps are being taken to solve these problmes?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRI P. V. RANGAYYA NAIDU): Amongst the problems coming in the way of fuller utilisation of hydel potential in the country are funds constraints, slow progress of civil works, clearance from environmental and forest angle, rehabilitation of project affected people, etc.

Ministry of Power and Central Electricity Authority closely monitor the progress of various activities of the projects under execution. Projects involving minimal impact on environment and forest are being identified. Detailed plans for catchment area treatment, compensatory afforestation and rehabilitation are being formulated to enable speedy clearance from environmental and forest angle. To bring additionality of resources, greater private participation is being encouraged to enable higher development of the hydel potential in the country.
